Feather HELP!	50
My ItsyBitsy/Feather stopped working when I unplugged the USB!	50
My Feather never shows up as a COM or Serial port in the Arduino IDE	50
Ack! I "did something" and now when I plug in the Itsy/Feather, it doesn't show up as a device anymore so I cant upload to it or fix it...	50
I can't get the Itsy/Feather USB device to show up - I get "USB Device Malfunctioning" errors!	51
I'm having problems with COM ports and my Itsy/Feather 32u4/M0	51
I don't understand why the COM port disappears, this does not happen on my Arduino UNO!	52
I'm trying to upload to my 32u4, getting "avrdude: butterfly_recv(): programmer is not responding" errors	52
I'm trying to upload to my Feather M0, and I get this error "Connecting to programmer: .avrdude: butterfly_recv(): programmer is not responding"	52
I'm trying to upload to my Feather and i get this error "avrdude: ser_recv(): programmer is not responding"	52
I attached some wings to my Feather and now I can't read the battery voltage!	52
The yellow LED Is flickering on my Feather, but no battery is plugged in, why is that?	53
What is CircuitPython?	54
CircuitPython is based on Python	54
