## Make your Poi Dance

---

This video will walk you through how to create, convert, and choreograph images using the KineticPOV code that is featured in our [Supernova Poi \(https://adafruit.it/nbj\)](https://adafruit.it/nbj) and [MorningStar Double Staff \(https://adafruit.it/nbk\)](https://adafruit.it/nbk) guides.

You can download the images and music that I used in this video below. It's a great starting place to make your own fully choreographed performance on your glow toys.

<https://adafruit.it/nbl>

This video features the song Las Amigas del Fuego by Darrell St. Blaine. The poi performance at the end of the video was shot using the uber-cool [Luminancer App \(https://adafruit.it/nbm\)](https://adafruit.it/nbm).
