How To Create A Wishlist

Want to create a quote for your business/school? Share your birthday wishlist with friends? Or just want to keep track of products you're interested in? You can use Adafruit's wishlist tool to do all three.

To create a wishlist sign up for and sign into your adafruit account.

The screenshot shows the Adafruit website's sign-up page. At the top, there are navigation links for Shop, Learn, Blog, Forums, LIVE!, AdsBox, and IO. On the right, there are links for Sign In and a shopping cart icon. The main heading is "SIGN UP". Below it, a paragraph explains the benefits of creating an account. The form includes fields for FIRST NAME, LAST NAME, EMAIL, USERNAME, and PASSWORD. A note states that the username is public. At the bottom, there are buttons for "CREATE ACCOUNT" and "SIGN IN".

To add items to your Wishlist go to the product page and click the "Add to Wishlist" button (NOT add to cart).

Then select which of your current wishlists you would like to add the product to or create a new wishlist by clicking on "Create New List"

By checking the box next to the wishlist, that product is automatically saved to that wishlist!
